

Player Rotation (as of 28 May 2022)

New paddle racks were built and mounted at the courts in May 2022.

Description of the Racks.

- The racks are hung on the fence for each court and are labelled with the court number:
 - Court 1, Court 2: just outside from Court 2
 - Court 3, Court 4: just outside from Court 3
 - Court 5, Court 6: just outside from Court 1
 - An extra Rack mounted outside Court 4 for use on Monday advance play
- Each rack can hold 8 paddles and the holes are labelled “1” through “8”.
- The paddle rack is painted in red and blue segments that groups the paddles into pairs.
- There is a yellow slider located on the front of the rack that can slide back and forth along the rack to indicate which paddles are up next.
- The racks are made of PVC pipe and can remain out in the weather.

Racks for Courts 5 & 6 on the left.

Racks for Courts 1 & 2 on the right.

Racks for Courts 3 and 4.

How to use the racks

- The racks are intended for use during “Drop In” Play sessions at the courts to rotate players in and out of the courts. A “2 on/2 off” or “4 on/4 off” rotation can be accommodated with the racks.
- A player puts her/his paddle in the rack for the specific court for which she/he would like to play on. The player needs to look at the rack to determine where the “NEXT” slider is positioned and place her/his paddle in the next open position.
- When play is finished on a court, the departing players will yell “Court #” and this is to call attention to the players waiting for that court to take their paddles from the rack & advance the yellow “NEXT” slider to the next two paddles.
- It is the responsibility of waiting players to pay attention to when a court become available for ongoing players. Listen for the court # to be yelled out.
- It is highly recommended that every player labels their paddle with their name.
- Use the appropriate gates to access the courts to keep from interfering with play on other courts.
